 **A FUTURE** through

 **VOCATIONAL TRAINING**

Your way to a good career

Steps to success

We help you on your way to a career. We offer support for you with the following services:

- Getting to know career and training options
- Improving your German (reading and writing at work)
- Making your arrival in Germany easier
- Helping you understand life in our country
- With us, you can find a training place at a company
- We will guide you until the end of your vocational training
- With us, you will have success starting your career

We support you

You have interest in a career. You already have experience.

We will help you to get started with a vocational training that's right for you.

We're here for you

- You arrived in Germany a short time ago and already speak some German? Or you have been living in Germany for a while but still have problems speaking German?
- You want to improve your chances for the future with a vocational training?

If you answer these questions with a yes, we can offer you a lot of support.

Vocational training pays off

In Germany, a good education is important for your future. It's key to success in your career. With a completed vocational training, you can make more money.

You even earn money during your training in a company and the vocational school. Learning pays off straight away.

And the right training occupation is out there for you, too.
